- Show it to your partner in the following modes: Listen first to the trailer without looking at the images. Next, have your partner watch the visuals without sound.
- Ask your partner the following question and write down the answer: Were your expectations met by the visuals? Why/not?

 - o An image of a place (a photo) that is the setting of your storytelling
 - o A person you saw in that place. Focus on the emotions that person feels
 - o The concept of your storytelling
- Keep it brief and conversational. Use the descriptive techniques you learned.
